The earlier the intervention the better!!!!!

Let me help your child!

HOW DO YOU RECOGNISE A PHYSICAL DEVELOPMENTAL DELAY?

- A child older than six who finds it difficult to sit still and concentrate for 10 minutes (and longer when older).

Dr Melodie de Jager

Specialised programs designed to support children with tailored interventions to address their unique needs.

MY MISSION STATEMENT

"To create a secure and supportive environment where every learner can thrive. My goal is to educate based on the child's functional level rather than their frustration level"
